Toshiba recommends Genuine Windows® XP Professional

Satellite Pro U200

Ultra-portable notebook for everyone

The Satellite Pro U200 is an ultra-portable notebook matching the needs of mobile, professional individuals. Small and compact, with a newly designed chassis, the U200 offers a convenient 12.1" wide display, offering natural and comfortable viewing. Featuring Toshiba's unique EasyGuard, the U200 offers added protection and security.

Ultra-portable "all-in-one" notebook for everyday use

- This 2-spindle ultra-portable comes in a sleek, light design weighing just 1.86kg and provides up to 4 hours of independent use
- Choice of new Intel® Centrino® Mobile Technology to succeed on the move, featuring either an Intel® Core™ 2 Duo Processor
- Improved mobile performance courtesy of high-capacity, high-speed Serial ATA hard disk drives and support for up to 4GB of DDR2 Dual Channel memory

Keep your data secure and protected with Tosiba EasyGuard

- Includes Toshiba's Shock Protection Design with Magnesium Casework for improved durability and greater protection of critical system components
- Spill-resistant keyboard allows ample time for users to save their work and shut down the system in the event of a spill
- Shock absorption, HDD Protection and Toshiba's own 3-axis motion monitoring system reduce the risk of hard disk drive damage and data loss due to shock, vibration or being dropped
- Biometric fingerprint reader provides convenient one-touch fingerprint password authentication for all system passwords (BIOS, HDD and Windows)

Easy connectivity for every environment

- Integrated Wireless LAN – WiFi, V.92 modem, Ethernet LAN and Bluetooth™ version 2.0 with EDR on selected models
- Mobile working is simplified thanks to Toshiba ConfigFree™ for seamless LAN, WLAN and WWAN connectivity
- Toshiba Summit software boosts productivity through efficient wireless conferencing functionality, including file sharing and chat
- Integrated microphone, stereo speakers and audio-out – ideal for VoIP calls

Ultimate multimedia experience and enhanced productivity

- Superb 12.1" WXGA TFT widescreen display enables users to view work-related content on a larger viewable area as well as enjoy DVDs in all their widescreen glory
- Benefit from greater brightness with the Toshiba TruBrite® display
- SRS® TruSurround XT® and WOW HD™ virtual surround sound effects ensure a wider and more dynamic sound stage

Enjoy DVD at your fingertips and archive data on DVD

- Integrated DVD-SuperMulti (Double Layer) drive for up to 8.0GB of data storage, multimedia recording and playback of CDs and DVDs
- Dedicated Multimedia Bar with Easy Keys enables convenient one-touch CD/DVD/MP3 player control

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. One GB means one billion bytes. Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba.nl or computers.toshiba.be. Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. Intel, Intel logo, Intel Inside, Intel Inside logo, Intel Centrino, Intel Centrino logo, Celeron, and Pentium are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries.

Genuine Microsoft and Windows are either registered trademarks or trademarks of Genuine Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices, system/component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.
